Csu Pluriversitte: (un)learning through the landscape, June 28, 2020

Identifier: 1749

Type: Document, Recording, Video Recording

Title: Csu Pluriversitte: (un)learning through the landscape, June 28, 2020

Subject: Places, Landscape

Description: In the midst of the current climate (COVID) our orbit has become smaller, but not less valuable. Limitations can bring to the surface observations that would not have been visible before. The familiar paths within the neighborhood hold unnoticed details, questions, and knowledge. Landscapes consist of natural and human shaped relics that mark human values and skills. However, the familiar sometimes feels so known that we stop observing the way new landscapes draw curiosity. Can we unlearn the knowledge that clouds our minds for new thinking? When we aim for a deeper connection with the outer we can also better understand the inner landscape. They are inseparable and by changing one - we shape both.
