

**Beech Hill Farm, brochure***A project of College of the Atlantic*

Beech Hill Farm is an 84-acre organic farm owned and operated by College of the Atlantic. The farm has approximately six acres of vegetables, herbs, flowers and strawberries in production, as well as heirloom apples and forested land.

The farm was donated in the spring of 1999 by COA alumni, after ten years of successful operation. Beech Hill Farm is certified organic by the Maine Organic Farmers and Gardeners Association (MOFGA).

"Part of COA's mission is to foster growth and development of informed and thoughtful citizens, who are also effective and inspired agents of social change. Since everyone is hooked into a large and changing food system, I feel that knowing about all the elements between field and fork are vitally important for responsible decision-making."

*Dr. Suzanne Morse  
COA Faculty in Applied Botany*
