
From Lake to Sea: Winter Habitations of Common Loons

From Lake to Sea: Winter Habitations of Common Loons

Identifier: 2380

Type: Map

Title: From Lake to Sea: Winter Habitations of Common Loons

Subject: Nature, Animals, Birds

Description: The Common Loon (*Gavia immer*) has historically been used as an indicator species during its summer breeding season. More specifically, loons have been used as an indicator for heavy metals, biocontamination, and acidity (Canadian Lakes Loon Survey).
